"The Coin Machines Merry-Go-Round"

MERCHANDISING MUSIC

By Bill Gersh

The most fascinating and pleasing change in the coin machine picture at this time is the fact that thruout the country there is a tremendous drive to get the new music equipment properly merchandised.

Distributors have come to realize that it is no longer logical to sell operators—just with the thought of selling more and still more machines.

Today—selling requires that the distributor merchandise his music equipment to the juke box operator so that he will be assured of continued prosperity operating the new equipment.

The higher prices being asked for the new equipment have, in themselves, changed the entire merchandising picture, according to automatica music leaders. The average coinman realizes that the big flush of the war era is practically over. The readjustment period is on its way in.

This, in itself, is expected to change many operations thruout the nation. The operator realizes that he can no longer continue on the old basis because of the fact that his territory is rapidly returning to a semblance of pre-war normalcy. This means he has to change his present tactics.

No longer will the distributor advise the buyer of automatic music equipment to just place the machines on location and call around each week to service them. He realizes now that he must do an educational selling job. He must convince the operator to arrange for a better commission basis so that he will be assured of continued, profitable operation—plus rapid amortization of the equipment he will purchase.

Everywhere in the nation the average music distributor is today preparing to merchandise (and not just sell) music. The intelligent distributor is urging the operator to immediately go to a 70%-30% commission basis so as to stabilize his business and to assure himself continued, long run prosperity.

Every operator of music machines thruout the country knows that his overhead has increased anywhere from 50% to over 150%. His record costs alone have tremendously jumped. And that even with this jump he cannot obtain all the records he wants and needs.

His trucks and tires cost him more than ever before. His labor, mechanical and office, and his general servicing overhead, have risen tremendously. Operators who formerly had two service men, now have four because their machines are going out of order more often than they did before and require more service. In addition they must give their locations better service than they ever did before to assure these locations remaining theirs.

Operators are signing leases with location owners, and have been able to make these stick thru court tests. They have not only won equitable amounts from the location owners who ousted them, but by such action have cemented their hold on these locations in their area.

The fact remains that the operator must also take into consideration that all parts and supplies cost him more than they did before. This addition to his present overhead is so great that unless he rapidly retrenches at a 70%-30% commission basis for the average location he will find himself away out on a limb in the cold, especially when it comes to amortizing the cost of the new machines.

There is no longer any doubt in the minds of all business men that the juke boxes are now really big business. And that as such they will definitely attract the attention of gigantic organizations who

"The Coin Machines Merry-Go-Round"

will want to sell direct and maintain large service forces—just as the automobile manufacturers are now doing in every town in the nation. Therefore, the music leaders report the best thing that the average juke box operator can do is to protect himself by arranging location contracts and leases, and by placing his commission arrangement on such a base where he is assured a sufficient financial reserve so that he can continue on regardless of how powerful such direct selling efforts may become.

Must juke box operators have elaborate plans for future music operation. Many are planning combinations of telephone and mechanical selection music. Such installations run into large sums of money. Some are also planning triple combinations of mechanical selective music thru a juke box mechanism, a mirrored arrangement for telephone music, plus music on film, so that all three will give the customers complete choice of selection.

Such a triple installation will cost approximately $5,000.00 or more. And this, even at a 10c play for the telephone and film music, still means that a completely new and different commission basis must be arrived at so that the operator can get his investment out of the equipment as rapidly as possible.

From every viewpoint then, as this new musical merchandising era gets under way, the trade must come to a better commission basis to cure many old former ideas which existed about what location owners should receive as commission.

The days of the 50%-50% commission basis are numbered. Even the amusement machine men realize that this commission basis no longer holds good because they cannot amortize their equipment with sufficient rapidity to assure themselves any profit.

Certainly, then, music men must realize that with all the records, parts, supplies, service, taxes, and all other increasing overhead, they SURELY CANNOT PAY MORE THAN 30% COMMISSION TO LOCATION OWNERS.

The time has arrived, thru gradual evolution, where music is being merchandised to the operator —and not just sold to him.

The average distributor has come to realize that he, too, faces severe competiton. He must sell on an entirely different and more sound and logical basis than ever before in his career. He must work with the operator right to the location. And to such an extent that the operator will be assured that all other music operators will also cooperate on this new commission basis so that he will not be left out in the cold.

Regardless of what plans are made from now on in to the adjustment period, and regardless of how many merchandising schemes are brought to the fore, so that distributors for the various music manufacturers will be able to meet their quotas—the answer will always resolve itself down to this one all-important fact—THAT THE OPERATOR MUST SET HIMSELF UP ON A NEW 70%-30% COMMISSION BASIS TO BE ABLE TO CONTINUE ON IN THIS BUSINESS AS SUCCESSFULLY IN THE FUTURE AS HE HAS IN THE PAST.

The drive that *The Cash Box* started over three years ago to get the operator to change his commission basis on his average location to 70%-30% has at last become a national crusade. Distributors everywhere in the country are for it. The operators especially desire it. In those territories where license taxation has leaped to new highs IT SIMPLY MUST BE PLACED INTO EFFECT, OTHERWISE THERE WILL BE NOTHING LEFT FOR THE MUSIC OPERATOR.

The Cash Box will continue to urge the trade to adopt this new and better basis. Only by this action will operators be able to show dollars in the bank instead of heaps of wood in a warehouse.

As surely as this is being read—the time has arrived, because of the price of new equipment, plus the fact that a finer type of business man has entered this industry, plus all other surrounding factors—when it is a matter of necessity to adopt the plan that *The Cash Box* has been urging for more than three years — IT MUST BE THE 70%-30% COMMISSION BASIS FROM NOW ON IN.

COURT RULES $50 PHONO LICENSE INVALID

CHICAGO, ILL. — The Illinois Supreme Court held last week, that while the city has the right to license juke boxes in its exercise of police powers, an ordinance of 1943 is invalid because the $50.00 annual fee set for each box is "out of proportion" to the regulatory burden imposed on the police.

Last May, the Supreme Court held that the fee was exorbitant, but did not rule on the legality of the ordinance otherwise. At the time of passage, the aldermen here figured the city's 7,000 boxes would yield $350,000.00 annually.

A meeting is being called on December 3 by Alderman Rostenkowski, chairman of the council license committee, to prepare a new ordinance.

KING PIN AIREON DISTRIB IN MICH.

KALAMAZOO, MICH. — J. R. "Pete" Pieters of the King Pin Games Company, this city, has announced that his company has been appointed as distributors for the phonographs and accessories of Aireon Manufacturing Corporation.

J. R. "Pete" Pieters

The territory assigned to King Pin Games Company covers Greater Michigan, excepting the Detroit area.

"Pete", who attended the showing of the Aireon line at the factory in Kansas City, Kans., and saw the equipment unveiled, is tremendously enthusiastic over the machines. "Those of us who attended the show" states Pieters "saw phonographs and accessories that is years ahead of our times. Operators in our territory, whom we have seen and spoken with, are anxiously awaiting the time when the Aireon machines will be delivered."

LADIES HOME JOURNAL "PLUGS" AUT. MUSIC

NEW YORK CITY — The Ladies Home Journal publishes a quiz on records in their current issue — and suggests that those who score less than 60 on the quiz should drop some nickels into a juke box and get better acquainted with the latest recordings. This is one of the best boosts for automatic music ever received. The Ladies Home Journal has the largest circulation in the woman's field.

GEO. ASHE BACK AT AUTOMATIC

PHILADELPHIA, PA. — George Ashe, on leave of absence during the war years, has returned to take over his duties once again as general manager of Automatic Equipment Company, Seeburg distributors for Eastern Pennsylvania, Maryland, Delaware and Southern New Jersey.

Ashe, who was a practicing attorney before he joined the Automatic organization, is well known to the trade. He immediately entered into their plans to put into effect the post-war expansion moves, which include the addition of an enlarged parts department, the latest electronic testing equipment, and the construction of a modern spray paint shop. Sales and promotion plans are also under way.

TED BUSH IS AIREON DISTRIB.

MINNEAPOLIS, MINN. — Ted Bush of Bush Distributing Company, 250 W. Broadway, this city, announced his appointment as distributor for Aireon Manufacturing Corp.

Bush will distribute the Aireon phonos, wall boxes and other automatic music accessories in Minnesota, North and South Dakota, and the Northern part of Wisconsin.

At the present time, Bush reports, his firm is seeking an entirely new and even larger building than they now occupy, where they will set up the most impressive music showrooms in this state.

IRV MORRIS OPENS IN NEWARK

NEWARK, N. J. —Irv Morris, one of the best liked people in the business, is back at his old stamping grounds, Newark, N. J. Active Amusement Machines Company, headed by the equally well known and well liked Joe Ash, and Irv Morris, has opened offices here at 417 Frelinghuysen Avenue. The new quarters includes offices, showrooms, repair department and a large warehouse.

Irv Morris

With the addition of the new offices in Newark, Active Amusement Machines Company will now distribute equipment for the entire state of New Jersey and Eastern Pennsylvania. Joe Ash, in Philadelphia will take care of the Pennsylvania territory, and Irv Morris will handle the Jersey distribution.

Working with Morris in Newark will be Charles Chaplar, expert mechanic who has repaired and re-conditioned coin machines for New Jersey's coinmen for the past 12 years. Irwin Rosenfeld will be in charge of the showrooms.

Joe Ash

"I am extremely happy to be back in Newark" stated Irv "and the many friends and operators here can look to me for the greatest cooperation."

PHOENIX, ARIZ. — M. W. "Mac" McBroom of Phoenix Distributing Company, this city, announced that they have been appointed distributors for Aireon Manufacturing Corporation, covering the states of Arizona and New Mexico.

R & S SALES TAKES ON AIREON

MARIETTA, O. — R & S Sales Company, this city, announce that they have been appointed exclusive distributors for the music machines and accessories of the Aireon Manufacturing Corporation, covering the territories of West Virginia and Virgina.

"Our offices and showrooms in Marietta" states R. D. Rose, head of the company "has been entirely renovated in anticipation of the arrival of the Aireon machies. Our offices in Richmond, Virginia, are complete, and our staff set up to take care of all our operators".

GENERAL HOLDS 2 CITY MEET ON AIREON

BALTIMORE, MD. — The Three Generals of The General Vending Service Company (Irv Blumenfeld, Harry Hoffman and George Goldman) returned from the showing of the new Aireon line of phonographs and accessories at Kansas City, Kans. so enthused that they arranged for a gathering of the music ops in their territory. The first meeting, held in Baltimore drew over 100 music ops, and the second meeting, held in Washington, D. C. had an attendance of more than 60 operators.

Irv Blumenfeld addressing the music ops at Baltimore meeting.

The Baltimore gathering was held in the showrooms of The General Vending Service Co., which when cleared of all equipment, made a large hall of over 2500 square feet. Irv Blumenfeld addressed the operators, and spoke over an hour on the Aireon line, explaining both the mechanical features and its appearance.

The music operators of Washington, D. C. met in the Gold Room of the Hamilton Hotel, where a buffet and bar set-up was arranged for their convenience. Ben Palastrant, regional manager for Aireon attended this meeting, and was thrilled by the attendance, and the enthusiasm shown by the operators. Blumenfeld also spoke to the ops here for about an hour.

It was announced to the gatherings at both showings that Eddie Dement, who is well known to the operators here, and who has been in the coin machines business in various capacities for years, had been added to the sales staff. Dement was introduced and spoke a few words.

Commenting about the meetings, Irv Blumenfeld stated "It was gratifying to see so many operators turn out in both cities, some coming for miles around, and the largest music operators in our territory were present. They all showed particular interest, even tho we didn't have a photo of the equipment to show them. Perhaps it was my enthusiasm being transmitted to them."

WASHINGTON STATE VERY ACTIVE

SEATTLE, WASH. — The State of Washington is running very good. There is a 10% tax of the gross by the state for all "amusement devices". To meet this situation "skill fields" are created on some of the equipment so that the machines are considered "amusement devices", which are the exact words used in the license bill.

There is a 20% of the gross tax on all "gambling machines". These are whatever may be considered in the light of a "slot machine". For example, a console without a "skill field" is considered a "slot" and is therefore subject to the 20% of the gross tax.

This is good One-Ball territory. Outside of Seattle, in such towns as Tacoma, and in Spokane, the runs are really big without payout equipment in almost every type of location. There are many Pin Games running here in Seattle, and the average operator seems to be more inclined toward one-balls and pin games than to any other type of machines. Most of the consoles and slots are running in clubs.

Arcade equipment is not heavily featured, but there are some running thruout the territory. The largest amusement center in the downtown area is one of the liveliest spots yet seen along the coast line.

Music goes along very good here. However, the music men more or less specialize in this type of equipment. They keep pretty much to themselves. They would all like to see a drive on for 70% commission and 30% to the location owner, but are not of the belief that this would prove successful here in view of the fact that there are many small operators who also have pin games, one balls, and other equipment in the spots, and would then use music as a leader by offering 50% regardless of the fact they realize this would not earn them money on music.

TRIPPE WANTS NATIONAL ATTORNEY

ST. LOUIS, MO. — Carl Trippe of Ideal Novelty Co., noted distributors here, makes a suggestion that bears a great deal of merit. Writes Carl:

"I would like to make a suggestion. I think the Coin Machine business should hire an attorney who is on the job at all times—which would especially help us in depreciation and income taxes. I am going to cite one case here. We were fined $100. on some of these Pin Ball cases, where the merchant paid off, although he was instructed not to. When they checked us for our Income Tax, they would not let us deduct the amount of the fine, the bond or the attorney fees. Our Association, as well as myself, feel that this is definitely a business expense and should be deductable. The Government will take the income from slots or pin balls, yet, they won't let us deduct these expenses."

(Ed. comment: This is just another reason why the industry needs a National Tax Council)

BOB SLIFER, SALES MGR. FOR EAST COAST

NEW YORK — Bob Slifer, well known to trade as sales manager for one of the east's foremost music machine distributors before the war, is back as sales manager for East Coast Sales & Distributing Company, exclusive distributors of Rock-Ola products for New York and New Jersey.

Bob Slifer

During the war Slifer connected with one of the largest manufacturers of electrical equipment where he held a number of important executive positions, including that of production control manager.

"I am very happy to be back with the coin machines boys" states Slifer "and am looking forward to renewing old acquaintances, and to meeting new operators at our headquarters here on Tenth Avenue. In Rock-Ola music equipment we have an exceptionally good product to sell, and we have a solid organization to do the selling."

AMI MUSIC IN NEW GUINEA

CHICAGO, ILL. — "The AMI music system is found in many unique and unusual places" states DeWitt (Doc) Eaton, General Sales Manager of AMI. "So we were not exactly surprised to read in the Saturday Evening Post that New Guinea's only juke box is an AMI machine in the WAC Recreation Hall. Among famous memorials equipped with the AMI music system is the Will Rogers Shrine of the Sun at Cheyenne Mountain, Colorado Springs, Colo.

SANDLER OPENS IN DES MOINES

DES MOINES, IA. — Irv Sandler, well known to to the music trade in this area, has just opened temporary headquarters at 317 - 18th Street, this city where he will represent the Aireon Manufacturing Corp., as distributor for their line of automatic music equipment.

Sandler is at present constructing an entirely new and very large building with a 66 foot frontage. It is believed that the building will be ready for occupancy by January 1, 1946.

Sandler will represent Aireon Manufacturing Corp. in Iowa and part of Nebraska. It is also reported that he will represent some of the large amusement machine manufacturers as distributor for their machines.

LEMKE EXPANDS FOR POST-WAR DISTRIB.

DETROIT, MICH. — About a year ago Henry C. Lemke, Lemke Coin Machine Company, this city, purchased the property at 135 W. Vernor Highway and completely renovated the building at an expenditure of $40,000. Now that materials are available, Lemke is building an addition to the building at an estimated $10,000. and will have one of the largest and most modern offices and showrooms in the country.

Due to the curtailment of manufacture during the war, Lemke curtailed the distribution of equipment, and specialized in operating Photomatics, and claims he was the largest dealer in Photomatics in the mid-west. "Now that the war is over" states Henry "I am expanding my Photomatic operations, and expect to do even a larger job than ever before."

In addition to operating Photomatics and other amusement machines. Henry Lemke will be in Chicago when this story appears, contacting the manufacturers to act as a distributor in his territory for equipment that doesn't conflict with his present type of machines.

Lemke will make an announcement in the very near future regarding the factories he represents.

BALLY APPOINTS SICKING DISTRIB.

CINCINNATI, O. — Bally Manufacturing Company, Chicago, Ill. announced this week the appointment of William Marmer of Sicking, Inc., this city, as regional distributors for all Bally products.

Sicking, Inc. will cover Ohio, western West Virginia, and part of the state of Kentucky.

KLEIN RENOVATES BLDG. FOR AIREON LINE

MILWAUKEE, WIS. — Harold Klein of the Klein Novelty Company, 3606 West Fond Du Lac Avenue, this city, is now renovating the building at this address which he jut purchased, in preparation for the presentation of the Aireon line of music equipment.

Klein reports that he will distribute the Aireon phonos and accessories in Wisconsin. He believes that these new machines will prove to be big money makers for music operators.

Klein is also reported to be representing various leading manufacturers of amusement machines.

MULLININX BUYS LARGE OPERATION

SAVANNAH, GA. — O. J. Mullininx of the Mullininx Amusement Co., this city, has just purchased the business of Frank J. Hahne, Savannah Amusement Co. Hahne was the oldest operator in the city in point of service, and one of the largest.

Mullininx will augment his present operations with the equipment of Hahne, giving him the largest and most diversified operations in the city.

An avid flyer, and owner of his own airplane, Mullininx has been covering a great deal of ground in his state visiting all the operators. He has been paving the way for the sale of new equipment for the factories he represents, and will make an announcement in the very near future regarding these lines.

MUSIC OPS DISCUSS TAXES & COMMISSION

LOS ANGELES, CALIF. — The newly formed Music Operators Association of Southern California held a regular meeting here this week. Many matters of great importance to the music trade were discussed. Foremost topics were on pending tax legislation and the proposed new operating commission of 70%-30%, which *The Cash Box* has been advocating.

The highlight of the meeting was the very interesting talk given by William (Bill) Wilson of the Clark Distributing Company, setting forth the future policies of the Rudolph Wurlitzer Company.

R. F. Gallagher, who presided at the meet, stated that other factory representatives of the music manufacturers have been invited to attend future meetings and give the members a talk on the policies of their respective companies. The next meeting is scheduled for December 17.

GUTSHALL RELEASES NEW RACE RECORDS

LOS ANGELES ,CALIF. — Jack Gutshall of the Jack Gutshall Distributing Company, this city, has announced the release of two new race records by the inimitable Timmie Rogers with the Al Russell Quintet, on the Excelsior discs.

Gutshall, who has had several sensational hits this season, believes that the Timmie Rogers recordings "Fla-Ga-La-Pa" and "Drop Another Nickel In The Juke Box" on Excelsior No. 136; and "Daddy-O" and Hep Paderewski From Basin Street" on Excelsior No. 138, will be the tunes on which the Juke Box Operators of the country will make big money.

"For low down groove singing" claims Gutshall "Timmie Rogers is in a class all by himself. His style and jive patter adds up to swing sing excitement that intoxicates and excites the listener. Phono operators would do well to stock up on these numbers to satisfy the tremendous demand that will be made once these discs start rolling."

Reiterating his policy of giving Music Operators first call on his records, Gutshall stated "We are appointing distributors nationally, and several very good territories are still open. The demand for real money-making race records is becoming more and more obvious, and every territory in the country can use large quantities."

K & M RELEASES NEW "RICH" RECORDS

LOS ANGELES, CALIF. — K & M Distributing Company (formerly K & M Service), announced the release of two new discs this week by Curt Barnett and the Trailsmen.

"Song of The Trailsmen" and "Bear In Mind" are on one disc, and "Bells of Sonora" and "Give My Broken Heart A Break" on the other. Critics who have heard these recordings believe they will prove to be outstanding hits.

Both platters are being produced under the "Rich" label. Columbia Pictures used both recordings in one of their films, which is slated for release in December. K & M claim that these two recordings will prove to be hit sensations and will make big money for the operators thruout the country.

COINMATIC RELEASES NEW DISC

LOS ANGELES, CALIF. — Preston Jarrell of Coinmatic Distributors of this city has announced the release of the latest hit recording by Ivory Joe Hunter, the well known artist of the Bay City area.

The new platters just off the presses are "7th Street Boogie" and "Reconversion Blues' on the Pacific label. According to Jarrell, critics who have heard these new recordings believe them to be sensational and that they will click big with the phono ops. Jarrell also stated that all discs released by Coinmatic are juke box tested.

Among the many hit tunes turned out by the very versatile Hunter is "Blues At Sunrise", which is still going strong.

EASTERN FLASHES

Hotel and train accommodations have been bad for weeks, but this past week was worse than ever, and next week it will be impossible to even get a closet for sleeping room. The National Association of Manufacturers are holding their first post-war meeting and have grabbed up every available space . . . Al Sebring, Bell Products Co., Chicago, gets into a place called the "Paris", and later, possibly thru the intervention of the "White House" is able to move into a fairly decent hotel. The song titles mentioned in the last week's issue, written by Al's cousin Jules Styne should have been "It's Been A Long Long Time" and "I Don't Want To Walk Alone".

Jack Ravreby's Owl Mint Machine Co., in Boston, Mass. was damaged by a fire a week ago. The fire started in the cellar and spread thru the entire building, causing Owl Mint some slight damage . . . C. M. I. BLUE BOOK

The "Coin Machine Industry Blue Book" for new and used coin operated equipment is issued every week. It is a review and digest of all selling prices based upon the market quotations for the week. *Copyrighted 1945 by The Cash Box, 381 Fourth Avenue, New York 16, N. Y.*

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The C.M.I. Blue Book can only feature the market prices as they are quoted. The C.M.I. Blue Book acts exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The C.M.I. Blue Book, rather than show no price, retains the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The C.M.I. Blue Book reports each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The C.M.I. Blue Book is to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the past week. Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK
5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
6. MEANS NO PRICES QUOTED FOR PAST TWO WEEKS
7. MEANS NO PRICES QUOTED FOR PAST THREE WEEKS
